PROFESSIONAL SUMMARY

Computer Science Engineer with a background in software engineering, machine learning, generative AI, and data-driven application development. Experienced in building web and mobile applications and developing AI projects involving LLMs, RAG, and model training. National Engineering Diploma in Computer Science from ESPRIT, with hands-on experience across Python, Java, JavaScript, and modern AI tooling.

SKILLS

AI & Machine Learning: Machine Learning, Deep Learning, NLP, Computer Vision, PyTorch, scikit-learn, CUDA, Hugging Face, Transformers

Generative AI & LLM Engineering: LLMs, RAG, LangChain, LangGraph, AI Agents, Prompt Engineering, Embeddings, Vector Databases, Ollama, OpenAI API

Cloud, DevOps & Architecture: Docker, Kubernetes, Argo CD, Microservices, CI/CD, Infrastructure as Code, Git, GitHub

Backend & Databases: Python, Java, Spring Boot, Node.js, Express.js, REST APIs, SQL, NoSQL, MySQL, MongoDB, PostgreSQL

Frontend & Mobile: Angular, Symfony, Twig, Flutter, JavaFX, JavaScript, HTML, CSS

Testing & Methodologies: Unit Testing, BDD, Agile, Scrum, Kanban, Jira, SDLC, Domain-Driven Design

PROFESSIONAL EXPERIENCE

IT Engineer Intern — ADDINN | Final-Year Project Internship (PFE) | May–Nov 2025

Completed a six-month end-of-studies internship, developing **ScreenCraft**, a web-based visual UI builder for designing interfaces through drag-and-drop interactions. Built the application with a Node.js backend and real-time UI updates. **Technologies:** Angular, GridStack, Node.js, Express.js, MongoDB, REST API, Socket.IO.

IT Engineer Intern — ADDINN | Centre Urbain Nord, Tunisia | Jul 2024 – Sep 2024

Developed a web application for a banking portal using Angular and Spring Boot.

IT Engineer Intern — ESPRIT | Ariana, Tunisia | Jul 2023 – Sep 2023

Developed a web application for international mobility management using Symfony.

Higher Technician Intern — ISET Sidi Bouzid | Jan 2020 – Jun 2020

Developed an internship-service management web application using HTML, CSS, JavaScript, Thymeleaf, and Spring Boot.

Technician Intern — Tunisie Telecom | Sidi Bouzid | Jan 2019 – Feb 2019

Developed a web application using HTML, CSS, and PHP.

Worker Intern — STEG | Sidi Bouzid | Jan 2018 – Feb 2018

Digitized and organized documents for information processing and document management.

SELECTED PROJECTS

WeProvide — Service Booking Platform

Developed a service marketplace connecting providers (e.g., electricians and plumbers) with clients who can browse and book services. Delivered web and desktop applications. **Tech:** Symfony, Twig, HTML, CSS, Java, JavaFX, MySQL.

ChatDB — AI-Powered Database Assistant

Created an AI application that lets users upload and manage SQL, CSV, and database files through a conversational interface, using an LLM for natural-language data interaction. **Tech:** Flutter, Node.js, Python, OpenAI API, SQL, CSV.

Retail Shop RAG Assistant

Built a retrieval-augmented generation (RAG) assistant for a shop, using a locally running LLM to answer questions grounded in shop-related information. **Tech:** Python, RAG, Ollama, LLMs.

Zeta — 30M-Parameter Nano Language Model

Experimented with training a compact 30-million-parameter language model on a dataset sourced from Hugging Face, using PyTorch and NVIDIA CUDA, with a tokenizer-based text preprocessing pipeline. **Tech:** Python, PyTorch, CUDA, Hugging Face, tokenization.

EDUCATION

National Engineering Diploma in Computer Science — ESPRIT, Ariana, Tunisia | 2022–2025

Applied Bachelor's Degree in Multimedia & Web Development — ISET Sidi Bouzid | 2017–2020

Baccalaureate in Mathematics — Lycée 9 Avril 1938, Sidi Bouzid | 2016–2017

CERTIFICATIONS

- Machine Learning — Stanford University (Coursera)
- Generative AI — Google (Coursera)
- Data Engineering — IBM (Coursera)
- CCNA — Cisco
- Database Fundamentals — Microsoft Technology Associate (MTA)
